**signs**

to facilitate social distancing  
& safety guidelines

# signs that signal changing times

As COVID-19 measures are slowly eased around the world, people are gradually returning to public and commercial spaces. Wanting to secure the health and safety of employees and visitors, companies are looking for a way to adhere to social distancing and safety guidelines in a manner that's also visually appealing. In response to this, we have developed **signs**. This temporary range provides a flexible, simple and cost effective solution for guiding people through spaces safely and easily.

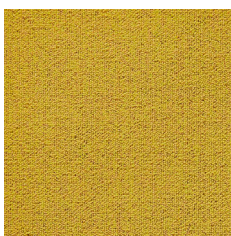

# 4 SIGNS, 8 BASE COLOURS

There are 4 different signs —Arrow, Hands, Distance, Feet— that can signal people and help them with wayfinding. Each inlay tile is made up of 2 colours from the First Forward range and can easily be placed into an existing floor layout. We have selected 8 colours in total, and any colour combination with these 8 colours is possible.

## base colours

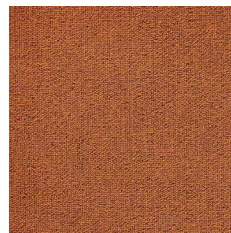

First Forward 995

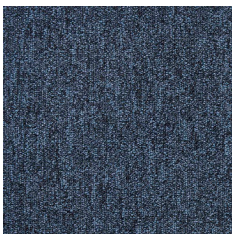

First Forward 210

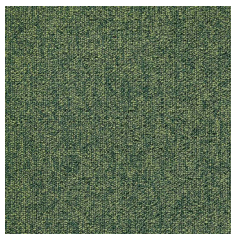

First Forward 961

First Forward 322

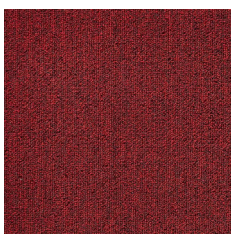

First Forward 573

First Forward 625

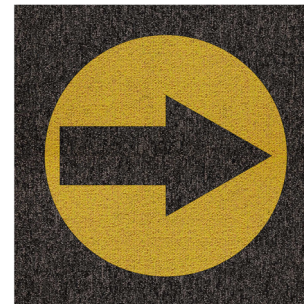

First Forward 989
