First collection

First Forward
First Straightline
First Streamline
First Decode
First Define

Since our inception, the First collection has been a true evergreen that has now been reengineered and revamped. Developed to bring the ideal combination of design, performance and value, the collection consists of 5 loop-pile carpet tile ranges that can be used on their own or mixed & matched into exciting floor layouts.

By using our in-house yarn, we created a series of patterns that use colour to provide co-ordination and balanced contrast. From laying a foundation with First Forward to marking out zones with the linear designs of First Straightline, First Streamline and First Decode and the flowing pattern of First Define; it's a collection that delivers effortless versatility at a favourable price point.

First Forward

First Forward is a loop pile carpet tile that brings you a wealth of on-trend mix&match possibilities at a competitive price level.

With a revamped design, an increased wear resistance and our own in-house yarn, we took (y)our evergreen 'First' to a whole other level. Thanks to its effortless elegance, First Forward is the perfect solution for any commercial interior.

Building on the solid base of First Forward and designed to mix&match flawlessly, First Straightline adds a contrasting pinstripe to the First collection at a competitive price level.

With its precise loop pile construction from our own in-house yarn, First Straightline's linear pattern is soft and refined. Whether you prefer a tone-on-tone design or a pop of colour with contrasting accent stripes, First Straightline translates the innate stylishness of the classic pinstripe into a timeless flooring design.
